

Please help to preserve a positive alternative to secular music. Air1 radio is so uplifting and has all positive things on it. Many people have come to Christ through this radio station. Christian music is the BEST. The community would feel it if you were to let this positive music be displaced by an LPFM broadcaster. I listen to no other station on the radio. This service to the public is like I said uplifting and positive. Not like the other garbage put on the airways by other stations. Thank you for reading my comment and preserving my favorite station and many others on the air.
